

CARE AND MAINTENANCE

Danceflor Cushioned Vinyl Flooring

Danceflor reduces cleaning and maintenance by simplifying the process and even eliminating steps. There is no need to apply waxes or other surface treatments, just sweep, wash, and rinse. **For complete instructions, refer to the Care and Maintenance Guidelines.**

General Advice

- On initial cleaning, utilize a red pad and cleaner for auto-scrubbing as recommended for periodic deep cleaning.
- Solvent cleaners should not be used because they can potentially damage resilient surfaces.
- Wipe up any grease or stains immediately.
- Black rubber wheels, feet, or mats can discolor flooring and should be avoided.
- Chairs and stools should be fitted with the appropriate protective end caps.
- Light colors may need more frequent cleaning.

Recommended Cleaners

Johnson Diversey's *Stride*, *Taski Profi*, and Flatrock Solutions' *Split* are recommended cleaning solutions. Consult with your local cleaning supplier for cleaners and equipment. Tarkett does not assume liability for damage caused by improper cleaning methods or the use of chemicals. Confer with your Dancefloor provider for more information.

Entrance Mats

About 80% of surface soiling is brought from outside. And 90% of that soiling can be avoided by an effective and correctly dimensioned entrance mat.

Dry Mopping / Sweeping

Dry mopping or sweeping removes dust and dirt. Use yarn mops, micro-fiber mops, or soft bristled brooms, and avoid treated dust mops.

Wet Mopping

Removes soil and other contaminants. Use a diluted neutral cleaner and rinse thoroughly to avoid heavy buildup of residues.

Auto-Scrubbing

Auto-Scrubbing is more effective and efficient for large areas. Use a diluted neutral cleaner and rinse thoroughly to avoid heavy residue build up. Higher PH cleaners can be used periodically for heavily soiled areas. White pads should be used for regular maintenance. Red pads can be used for periodic deep cleaning.

Spot Cleaning

Treat stains immediately. Handle spots using a white rag with mineral spirits or neutral detergent (solvents should not be used). Work from the outside of the mark towards its center. Rinse with water and dry. Avoid the use of solvents.
