

Care and Maintenance

Dropzone Rubber Fitness Flooring

Dropzone rubber flooring is durable and easy to maintain. There is no need for applying waxes or other surface treatments, just sweep, wash, and rinse.

General Advice

- Resilient floors can be damaged by solvents, which should not be used in cleaning.
- Wipe up any grease or stains immediately.
- Use cleaning solution and water sparingly on tile floors.
- Remove excess liquid immediately after application.

Be sure to consult with your local cleaning supplier for cleaners and equipment. Tarkett Sports does not assume liability for damage caused by improper cleaning methods or the use of chemicals. Confer also with your Dropzone flooring provider for more information.

Entrance Mats

About 80% of surface soiling that has to be cleaned off is brought from outside. And 90% of that soiling can be avoided by an effective and correctly dimensioned entrance mat.

Dry Mopping / Sweeping

Dry mopping or sweeping removes dust and dirt. Use yarn mops, micro-fiber mops, or soft bristled brooms, and avoid impregnated dust mops.

Auto-Scrubbing

Auto-Scrubbing is more effective and efficient for large areas. Use a diluted neutral cleaner and rinse thoroughly to avoid heavy residue build up. Higher PH cleaners can be used periodically for heavily soiled areas. White pads should be used for regular maintenance. Red pads can be used for periodic deep cleaning.

Wet Mopping

Removes soil and other contaminants. Use a diluted neutral cleaner and rinse thoroughly to avoid heavy build up of residues.

Scrubbing/Wet Vacuuming

Scrubbing removes embedded dirt and grime. Deck brushes with soft to medium bristles are effective for stubborn areas. After scrubbing or wet mopping use a wet vacuum to remove dirty water. Be sure to rinse with clean water and vacuum afterward to remove all residues.

Spot Cleaning

Treat stains immediately. Handle spot using a white rag with mineral spirits or neutral detergent (solvents should not be used). Work from the outside of the mark towards its center. Rinse with water and dry. Avoid the use of solvents.
